Scot Ober, Robert Hanson, Jack Johnson, Arlene Zimmerly, Robert Poland, Albert Rossetti, Betty Schechter : **Glencoe Medical Keyboarding w/CD-ROM and Data Disk** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Glencoe Medical Keyboarding w/CD-ROM and Data Disk:

Glencoe Medical Keyboarding 1e provides 20 lessons of sound alphanumeric keyboarding instruction, including proper technique development and skillbuilding practice. Once the keyboard has been mastered, 30 lessons provide medical materials for the student to key: warm-up paragraphs, medical terms and definitions, language arts application

sentences, timed writings, and medical documents to be formatted.
