before purchasing it in order to gage whether or not it would be worth my time, and all praised Global Health Training  
In Graduate Medical Education: A Guidebook, 2nd Edition:

Global Health Training in Graduate Medical Education is a guide to help medical schools, residency programs, students, residents, fellows, educators and allied health professionals create, expand and improve global health education. Investigate the history of global health work, learn from the experience of established programs and health care leaders, seek out new educational resources, and consider the ethical implications of health work in communities at home and abroad.
