**Michael C. LeMay : Global Pandemic Threats: A Reference Handbook (Contemporary World Issues)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Global Pandemic Threats: A Reference Handbook (Contemporary World Issues):

0 of 0 people found the following review helpful. LIES.....AND MORE LIES AND THE CONTINUATION OF LIESBy CATRYNALIES.....ALL LIES. This book is a disgusting perversion and continues to dispense the lies that

have been generated for two hundred years. DO NOT buy this book. A much better option that tells the truth would be.... "Virus Mania: How the Medical Industry Continually Invents Epidemics, Making Billion-Dollar Profits At Our Expense."

This book offers an accessible reference on epidemic and pandemic diseases that provides background information and history, explains why pandemics are a newly emerging threat, identifies the difficulties in coping with them, and provides hope in the form of modern medicine. Provides readers an understanding and appreciation of the extent of the devastation of pandemic diseases of the past centuries Shows how the pioneers of modern medicine conquered contagious diseases of the past that had been scourges in human history Documents and explains the development of newly emerging viral diseases that have the potential of becoming pandemic outbreaks that kill millions Employs primary documents ranging from data from reports from the CDC and WHO to firsthand accounts of past pandemics and their deadly impact

"This is a valuable and accessible resource for high school and public library collections." - Booklist "Dense with information . . . this work contains extensive footnotes and references, and teens and adults searching for comprehensive content on various topics relating to the issue of global pandemic threats need look no further. A go-to resource for paper writing and a jumping-off point for more in-depth academic research." - School Library Journal About the Author Michael C. LeMay, PhD, is professor emeritus of political science at California State University-San Bernardino (CSUSB), CA. He also served as assistant dean and was director of a interdisciplinary master's degree program in national security studies.
