World Health Organization : Global Surveillance, Prevention and Control of Chronic Respiratory Diseases: A Comprehensive Approach before purchasing it in order to gage whether or not it would be worth my time, and all praised Global Surveillance, Prevention and Control of Chronic Respiratory Diseases: A Comprehensive Approach:

Chronic respiratory diseases, such as asthma and chronic obstructive pulmonary disease, kill more than 4 million people every year, and affect hundreds of millions more. These diseases erode the health and well-being of the patients and have a negative impact on families and societies. This report raises awareness of the huge impact of chronic respiratory diseases worldwide, and highlights the risk factors as well as ways to prevent and treat these diseases.

About the AuthorWorld Health Organization is a Specialized Agency of the United Nations, charged to act as the world's directing and coordinating authority on questions of human health. It is responsible for providing leadership on global health matters, shaping the health research agenda, setting norms and standards, articulating evidence-based policy options, providing technical support to countries and monitoring and assessing health trends.
