From Brand: Lippincott Williams Wilkins : Griffith's 5-Minute Clinical Consult, 2006 (The 5-Minute Consult Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Griffith's 5-Minute Clinical Consult, 2006 (The 5-Minute Consult Series):

1 of 1 people found the following review helpful. Good Quick Reference By K. Ferguson Quite good. I like the format of the book - very useful to anyone willing to tote it. 2 of 6 people found the following review helpful. Griffith's 5-Minute Clinical Consult, 2006 By Judith Celik I like this reference at home for a quick reference. This edition is expanded from "my original" 1999 edition. 0 of 10 people found the following review helpful. Topic updates needed By Wendy Station Recommend that the author review and edit the section on West Nile, to be certain that it expresses the

facets of this very active topic clearly and accurately.

Written by more than 330 expert clinicians, Griffith's 5-Minute Clinical Consult, 2006 is a quick reference for current medical diagnosis and treatment. It covers more than 1,000 medical/surgical conditions in the famous two-page format that includes basics, diagnosis, treatment, medications, follow-up, and miscellaneous considerations. New topics covered in the 2006 edition include antithrombin deficiency; ovarian hyperstimulation syndrome (OHSS); protein C deficiency; protein S deficiency; and prothrombin 20210 (mutation). The book includes more than 200 algorithms for diagnosis and treatment based on presenting signs and symptoms, plus 77 U.S. Preventive Services Task Force guidelines on screening, counseling, immunizations, and chemoprophylaxis. Evidence-based medicine references are cited in each entry. A free bound-in CD-ROM contains the full text plus a collection of dermatology images. Griffith's 5-Minute Clinical Consult, 2006 is also available electronically for PDAs. See PDA listing for details.
