Larry D. Purnell PhD RN FAAN : Guide to Culturally Competent Health Care before purchasing it in order to gauge whether or not it would be worth my time, and all praised Guide to Culturally Competent Health Care:

3 of 3 people found the following review helpful. Great summary of different cultures By MaGabriela It is imperative that health care professionals understand the importance of being culturally competent to provide appropriate holistic

care. This book provides a great overview of the major cultures we see in the country and provides a good perspective of how patients feel and see health. To be good advocates for our patients we must know how to approach them and respect their beliefs. 2 of 2 people found the following review helpful. A very, very broad overview. I had to ...By RocklinA very, very broad overview. I had to buy it for a class. Would never have bought it on my own. I have a degree in Anthropology, I personally would go with Peter Burke in examining the meaning of culture and Michel Foucault for the nuances of the health care system. 0 of 0 people found the following review helpful. I felt this was an unnecessary purchase, when this could have been simply included ...By Megan AkardEven though it helped me understand other cultures on a light level, it was never truly needed in my course. With all the material you are required to read already, I felt this was an unnecessary purchase, when this could have been simply included in my course material. But a decent read if looking to enhance cultural competence with your already developed skills

Be prepared for the culturally rich and diverse world of healthcare! This concise, easy-to-read handbook prepares you to relate to individuals from different cultures. Use it in class and clinical now and as a reference throughout your career. The Purnell Model is your guide as you explore 34 different cultures and the issues that you need to be sensitive to including cultural variations regarding personal space, dietary preferences, communication, symptom management, activities of daily living, and religious and health practices.
