**Institute of Medicine, Board on Health Promotion and Disease Prevention, Pollutants, and Synthetic Chemical Compounds Committee on Gulf War and Health: Literature Review of Selected Environmental Particulates : Gulf War And Health: Fuels, Combustion Products And Propellants (Vol. III)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Gulf War And Health: Fuels, Combustion Products And Propellants (Vol. III):

0 of 0 people found the following review helpful. good book a lot of information the postageBy Becky TridleThe best information book about Gulfwar illness the price was good

The third in a series of congressionally mandated reports on Gulf War veterans' health, this volume evaluates the long-term, human health effects associated with exposure to selected environmental agents, pollutants, and synthetic chemical compounds believed to have been present during the Gulf War. The committee specifically evaluated the literature on hydrogen sulfide, combustion products, hydrazine and red fuming nitric acid. Both the epidemiologic and toxicologic literature were reviewed.
