Charles Wiener, Anthony S. Fauci, Eugene Braunwald, Dennis L. Kasper, Stephen Hauser, Dan Longo, J. Larry Jameson, Joseph Loscalzo, Cynthia Brown : Harrisons Principles of Internal Medicine Self-Assessment and Board Review 18th Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Harrisons Principles of Internal Medicine Self-Assessment and Board Review 18th Edition:

1 of 1 people found the following review helpful. great review book for medical boards not as helpful for ...By Customergreat review book for medical boards not as helpful for FNP students as the testing format vary greatly. Information wonderful for knowledge and critical thinking outside of primary family practice0 of 0 people found the following review helpful. Five StarsBy CustomerI LIKE IT0 of 0 people found the following review helpful. Excellent

review of IM for recertification By Carlos Arauz-Pacheco Excellent review of IM for recertification, I'm a subspecialist preparing to recertify and the questions and answers are an excellent way to update my knowledge in general IM and other subspecialties. The answers are concise and clear.

Add the unmatched authority of Harrisons to your board review or test preparation 1,100 review questions! Based on the content of Harrisons Principles of Internal Medicine, 18e, this powerful study tool is essential for Internal Medicine Board certification or recertification/maintenance of certification, or as a refresher for any internal medicine examination. Reflecting the accuracy and timeliness of Harrisons, this complete review of internal medicine features more than 1,100 review questions, many of which utilize realistic patient scenarios, including radiographic or pathologic images. Each question is accompanied by a complete answer and explanation derived from and cross-referenced to Harrisons Principles of Internal Medicine, 18e. These questions are designed to bolster your understanding of pathophysiology, epidemiology, differential diagnosis, clinical decision making, and therapeutics. Features Content that closely follows the organization and coverage of the 18th edition of Harrisons Principles of Internal Medicine More than 1,100 QAs that simulate those on the primary certification examination in internal medicine Detailed answers explanations for each question Coverage that spans the entire spectrum of internal medicine Full-color atlas Each topic is covered in proportion to its level of importance on the Internal Medicine Examination Blueprint
