was very informative as I have glaucoma and am doing everything I can naturally to keep my pressure down. I have read many articles and books but this one sealed the deal. I liked it because it gave precise information that I could use and didn't have to go to another source to do more research. Thanks for all that great information. I got it and I understand it. 2 of 2 people found the following review helpful. OUTSTANDING!!!! By carol43015 OUTSTANDING!!!! A must buy for anyone facing a glaucoma diagnosis and for those who wish to prevent glaucoma. Thank you Dr. Swartwout for writing this book. 7 of 8 people found the following review helpful. Very good advice in this book. By Margaret I have found this book to be very enlightening on this subject and am trying to follow it because I have Glaucoma. I do not want to use prescription drops that have serious side effects. I believe in natural healing and that nutrition is basic to health.

Healing Glaucoma is the most comprehensive guide to natural medicines with potential applications in the prevention and reversal of Glaucoma.

"This book... provides a thorough review of many healing modalities in order to help a person's eye, body and soul heal the condition of glaucoma... A must for any patient or professional working with this condition." - Marc Grossman, O.D., L.Ac.
