Marilyn G. Foreman MD, Sandra K. Willsie DO FACOI FACP FCCP : Health Care Disparities: Respiratory Outcomes in Minorities, An Issue of Clinics in Chest Medicine, 1e (The Clinics: Surgery) before purchasing it in order to gage whether or not it would be worth my time, and all praised Health Care Disparities: Respiratory Outcomes in Minorities, An Issue of Clinics in Chest Medicine, 1e (The Clinics: Surgery):

This issue discusses the hot-button issue of racial disparities in respiratory health. Topics covered include an in-depth look at asthma in the urban environment and among Latinos and African Americans. Lung cancer is also discussed as it presents in US minority populations. Sarcoidosis, COPD, and sickle cell lung disease are also reviewed. The issue tackles questions about outcome disparities, barriers to lung transplantation, and HIV in minorities. It concludes with an examination of how these disparities might be eliminated.
