**From BiblioGov : Health Care: Lack of Coordination Between Medicaid and Medicare at John J. Kane Hospital: Hrd-77-44** before purchasing it in order to gage whether or not it would be worth my time, and all praised Health Care: Lack of Coordination Between Medicaid and Medicare at John J. Kane Hospital: Hrd-77-44:

Management practices of the John J. Kane Hospital which were reviewed included the management of patients' funds, cost reporting for Medicaid in 1974, staffing procedures, and the practice of crediting the Medicaid program for contributions from relatives of patients. Medicaid and Medicare programs at the hospital were not coordinated.

Problems caused by this lack of coordination included: patients paid for services covered by either or both programs; the hospital incorrectly charged the costs of some services to both programs; State Medicaid program rules violated Federal regulations; and audit information was not exchanged between Medicaid and Medicare. Additional problems were identified in the hospital's staffing practices and solicitations of contributions from relatives of the patients.
