American Academy of Orthopaedic Surgeons (AAOS), American College of Emergency Physicians (ACEP), Stephen J. Rahm : Health Care Provider CPR before purchasing it in order to gage whether or not it would be worth my time, and all praised Health Care Provider CPR:

0 of 0 people found the following review helpful. cpr for healthcare providerBy MOI had to renew my CPR for work and registered in a hospital nearby to do this, but needed to study before going there...didn't want to go get a book at the hospital..found this one on , downloaded on my kindle...et voila!!! I could start reviewing right away... no extra trip needed to get the book...the book covers all you need to pass your basic CPR without problems... I did thanks to that book!0 of 0 people found the following review helpful. The item was delivered on time and is very useful. I was able to start reading the book ...By Marleen IngramThe item was delivered on time and is very useful. I was able to start reading the book before class began. Thank you so much Bookbite0 of 0 people found the following review

helpful. Four StarsBy Paul Joseph GuthrieClear, concise textbook, used as required text in EMR course.

This manual is developed for use within health care provider level CPR training courses offered through the Emergency Care Safety Institute. Based on the 2010 International Consensus Guidelines for Cardiopulmonary Resuscitation (CPR) and Emergency Cardiac Care (ECC), Health Care Provider CPR, Fourth Edition is ideal for use within courses designed to certify health care providers in CPR and AED. More than a stand-alone text, this student manual is the center of an integrated teaching and learning system that offers many resources to better support instructors and prepare students. This manual includes: Coverage of the 2010 CPR and ECC Guidelines: Clear, concise direction on how to perform CPR and use an AED during an emergency. Skill Drills: Offer step-by-step explanations and visual summaries of important skills. Emergency Care Wrap-Up Tables: Provide a concise summary of what signs first aiders should look for and what treatment steps they should take.
