gauge whether or not it would be worth my time, and all praised *Health Care Venture Capital Best Practices: Top VCs and CEOs on Company Growth Plans, Valuations, Exit Strategies, and Raising Rounds of Capital. . . (Inside the Minds)*:

Health Care Venture Capital Best Practices is an authoritative, insider's perspective on the ins and outs of health care venture capital for VCs, entrepreneurs, and industry executives. Featuring managing partners at top VC firms and CEOs of funded health care companies, these experts provide best practices for venture capitalists and entrepreneurs at all stages of an investment with a focus on raising capital, establishing valuations, determining exit strategies, and structuring deals. From spotting opportunities in the industry to developing a solid leadership plan, these industry leaders discuss characteristics that make a good partner, key tools and methods for determining valuations, strategies for conducting due diligence, and negotiation techniques to produce a successful deal. These seasoned experts reveal their advice for increasing fund-raising, assessing potential ROI, evaluating the timeline of a deal, and understanding management team criteria, as well as provide insight for hedging risks and avoiding common mistakes. Additionally, the authors offer strategies for overcoming challenges, dealing with biotechnology risks, and investing in medical device companies. The different niches presented and the breadth of perspectives represented enable readers to get inside some of the leading minds of today, as these insiders offer up their thoughts around the keys to successful deal-making in this rapidly evolving industry. *Inside the Minds* provides readers with proven business intelligence from C-Level executives (Chairman, CEO, CFO, CMO, Partner) from the world's most respected companies nationwide, rather than third-party accounts from unknown authors and analysts. Each chapter is comparable to an essay/thought leadership piece and is a future-oriented look at where an industry, profession, or topic is headed and the most important issues for the future. Through an exhaustive selection process, each author was hand-picked by the *Inside the Minds* editorial board to author a chapter for this book. Chapters Include: 1. Philip Lee, President and Chief Executive Officer, PHT Corporation "Building a High-Growth, Venture-backed Health Care Company" 2. Alex Zisson, Partner, Thomas, Mc Nerney Partners "Investing in Innovation: Successful Strategies in Biotech VC" 3. Richard M. Ferrari, Managing Director, De Novo Ventures "Value Creation for Health Care Startups" 4. Jack W. Lasersohn, General Partner, The Vertical Group "Meeting the Challenge of Investing in a Health Care Company" 5. Kevin Hutchinson, President and Chief Executive Officer, Prematics "Growing and Succeeding in the VC Fund-Raising Process"
