**Huffman, Edna K. Huffman : Health Information Management** before purchasing it in order to gage whether or not it would be worth my time, and all praised Health Information Management:

0 of 0 people found the following review helpful. Very nice referenceBy PurpZIf you are HIM student, this book is for you. I really recommend it because it really does break information for you to understand it well. If your familiar with the Latour book, I suggest that you buy this, it will help you understand everything.0 of 0 people found the following review helpful. As promisedBy Jill ScottThe book is in good condition. I have no complaints regarding the condition of the book, considering its age. The only problem I had was with the packaging. The plastic postal packaging was damaged and torn, which caused the edges of the book to get scuffed.0 of 0 people found the following review helpful. Five StarsBy FoolishservantExcellent quality

Health Information Management by Huffman; Huffman,Edna K.. [1994,10th Edition.] Hardcover
