**Institute of Medicine, Board on Health Care Services, Committee on the Consequences of Uninsurance : Health Insurance is a Family Matter (Insuring Health)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Health Insurance is a Family Matter (Insuring Health):

Health Insurance is a Family Matter is the third of a series of six reports on the problems of uninsurance in the United Sates and addresses the impact on the family of not having health insurance. The book demonstrates that having one or

more uninsured members in a family can have adverse consequences for everyone in the household and that the financial, physical, and emotional well-being of all members of a family may be adversely affected if any family member lacks coverage. It concludes with the finding that uninsured children have worse access to and use fewer health care services than children with insurance, including important preventive services that can have beneficial long-term effects.
