**Randy Cottrell, James F. McKenzie : Health Promotion Education Research Methods: Using The Five Chapter Thesis/ Dissertation Model** before purchasing it in order to gage whether or not it would be worth my time, and all praised Health Promotion Education Research Methods: Using The Five Chapter Thesis/ Dissertation Model:

0 of 0 people found the following review helpful. Great bookBy brent spruillGreat product with analysis of review. Helps with setup of dissertation.0 of 0 people found the following review helpful. Great book!By KristopherSUPER helpful book for learning about research methods, or for refreshing what you learned long ago. I've found the sections on quantitative and qualitative methods to be most helpful so far, but imagine the rest of the book will become more

useful once I actually begin writing my dissertation chapters.0 of 0 people found the following review helpful. It is a great asset and reminder while writing this dissertationBy Monique MartinezThis has totally helped me remain thorough yet concise. It is a great asset and reminder while writing this dissertation.

The main objective in writing a thesis or dissertation is to teach students how to conduct research in a planned and systematic way. Health Promotion Education Research Methods, Second Edition provides an overview of the different approaches to research methods and introduces students to the five-chapter thesis or dissertation format. Designed for health education specialists, this text uses plenty of health education examples, some from former graduate students work, to help students learn and understand how research is used within the Health Promotion and Education profession.
