I was very disappointed with this productBy BillyI agree with another reviewer that said this pamphlet is not worth .20 cents much less \$3.00. It is also written for those dealing with the British pound not the US Dollar. I was very disappointed with this product. I called customer service immediately and was told I would be credited back the \$2.99! If I am not, I will be back for a follow up review!! I needed help in this subject and this did not scratch the surface. I would steer away from this product as it is no help at all. Shame on for pricing or allowing this product to be sold or priced at \$2.99!!!! I gave it a one because there was not a lower rating!!!!6 of 6 people found the following review helpful.
