Diana C. Emanuel PhD CCC-A, Tomasz Letowski : Hearing Science before purchasing it in order to gage whether or not it would be worth my time, and all praised Hearing Science:

0 of 0 people found the following review helpful. Four Stars By Eric bought as a requirement for one of my classes...exactly the same as the one in the campus book store 0 of 0 people found the following review helpful. Love it. By Liz So good items. 0 of 3 people found the following review helpful. One Star By Judy Lieberman Textbook

This textbook provides a comprehensive presentation of all aspects of hearing science, including acoustics, psychoacoustics, anatomy and physiology, and related topics such as introduction to digital signal processing and instrumentation in hearing science. It is designed to supplement in-class instruction with both remedial and advanced

material for students with different academic backgrounds, and is ideally suited for speech pathology and audiology students at the undergraduate and introductory graduate levels. Online student resources on thePoint will include video demonstrations, a quiz bank, labeling exercises for images in the book, PDFs for selected chapters, Web links, and audio clips. Online instructor resources on thePoint will include PowerPoint slides, a test generator, an image bank, and homework assignments with answers.
