Been reading it since high school (University senior) Sad to see it go, but happy to have read it!1 of 1 people found the following review helpful. A Must Read!!!By ellieGran is an amazing storyteller; that definitely goes

without question. Her art does an amazing job of keeping the reader's eyes engaged, as well as telling a down-to-earth story. Halla's coloring skills translate really well from online to print, which I enjoyed a lot. Definitely thicker than the first 4 installments, which is a huge plus. I've been reading Octopus Pie for a little over a year now on its website, and to see it end is very bittersweet. An amazing read for comic book enthusiasts and general readers alike.

As they watch the days of their youth roll by, Brooklynites Eve, Hanna and friends must confront the truth about themselves -- whether they're ready to or not. The award-winning webcomic series comes to a close in this final laugh-filled, heart-rending installment.
