American Academy of Professional Coders : Official CPC Certification Study Guide, 5th Edition before purchasing it in order to gauge whether or not it would be worth my time, and all praised Official CPC Certification Study Guide, 5th Edition:

12 of 12 people found the following review helpful. Need NEXT edition to include ICD-10-CM By Jim Cummings The fifth edition I received in January 2016 still contained references to ICD-9-CM which was replaced by ICD-10-CM in October 2015. It proved to be relatively useless as a training tool for future CPC Certification Exams. I expected better with the AAPC logo. ICD-10-CM is needed now. The topical organization and explanations remain helpful. I would have loved it last year. Jim Cummings, AAPC member 2 of 2 people found the following review helpful. Not up to date material By Cassie Do not get this book!!! It is not going to help you with all the new updates. It has the codes for ICD 9, which was discounted last year. 12 of 13 people found the following review helpful. I recommend it! By Ms. Bee Passed my exam using this; had some of the same or similar questions. I recommend it!

"Official CPC Certification Study Guide - (ICD-9)" Packed with test-taking tips and techniques, the OFFICIAL CPC CERTIFICATION STUDY GUIDE delivers a current and comprehensive review that is the ideal prep for the AAPC CPC Certification Exam. The guide begins with a complete summary of the business of medicine, ensuring a solid understanding of the medical office and the role of the coder. It covers ICD-9-CM guidelines using real-life examples. Each body system is reviewed, including coverage of anatomy, related diagnosis coding, CPT coding, HCPCS Level II coding, and modifiers. End-of-chapter questions are modeled after those on the actual certification exam, and operative notes give readers further hands-on experience coding what they have learned. An end-of-guide practice exam gives readers additional practice putting their skills to the test.

About the Author The American Academy of Professional Coders was founded in 1988 to provide education and professional certification to physician-based medical coders, as well as to elevate the standards of medical coding by providing student training, certification and ongoing education, networking and job opportunities. AAPC has a worldwide membership base topping 110,000-more than 78,000 of whom are certified. The quality of AAPC certifications coupled with the strength in its membership numbers offers certified AAPC members credibility in the workforce-as well as higher wages.
