**Jason : On The Camino** before purchasing it in order to gauge whether or not it would be worth my time, and all praised On The Camino:

0 of 0 people found the following review helpful. Must read! By Larry Dickman I did not want to put this down once I started. A great book by a really great cartoonist. 0 of 0 people found the following review helpful. Truly Jason By Zack G. Interesting to see Jason do a personal nonfiction piece. Did actually make me want to walk the Camino too. 1 of 1 people found the following review helpful. Jason is back By Customer I've read most of Jason's books and this is the first time he is writing/drawing about himself. However, it is as good as usual. Melancholic, insightful and beautifully drawn, a typical Jason book that is. It's not in color, but it's longer than most of his other works so I can live with that. Well worth reading!

Internationally acclaimed cartoonist Jason's first full-length graphic memoir is about his experiences walking a 500-mile pilgrimage for his 50th birthday. Northwestern Spain, observed with the eye of an artist, chronicling both the good (people, conversations) and the bad (blisters, bedbugs) he encountered on his journey. Full of quiet incidents, odd encounters, small triumphs, and the occasional setback, *On the Camino* is the first implicitly autobiographical long-form work by a master cartoonist. Black white illustrations throughout.

**About the Author** Jason hails from Oslo, Norway, but currently resides in Montpellier, France. He's won multiple Eisners, a Harvey, and an Inkpot award.
