I would also recommend the Dark Times series, which happens right after the Clone Wars.0 of 0 people found the following review helpful. More clone wars to add to the series. different perspective. Worth the buy. 1 of 1 people found the following review helpful. A great one By DJ This was one of the good ones because it boasts a lot of Jan Duursema's art, and there were a lot of lightsaber fights in this one. I especially liked the story where Mace Windu and his fellow masters go ballistic on an army of mercenaries.

Mace Windu leads an elite Jedi strikeforce against an army of trained killers in a demonstration of Jedi power and resolve... Aayla Secura must confront her former Master in an effort to retrieve the plans for a weapon that has already destroyed one world... Obi-Wan Kenobi and Anakin Skywalker must join forces with a renegade Jedi to prevent a fleet of warships from falling into the hands of the enemy... On whatever field of battle the Jedi find themselves, their greatest challenge is to remain true to their teachings and to the ways of the Force!
