M. Bayne You know how guys do this stupid thing where they look at another guy and try to figure out if they could take him? You know, like if the other guy comes over here, and knocks my drink over, and I tell him to go suck an egg, and he takes a swing, can I take the hit? What are his soft spots? Weak points? Should I try that thing from that martial arts class I took when I was twelve and dump him on his head? Or should I bob and weave, hit him back, and change his mind about the situation? Can I hit him hard enough to get him to leave me alone? Can I hit him so hard he's sorted out for good and wants to be my friend for life? Or maybe I am not strong/quick/tough enough to mess with that guy, and maybe I would get hurt. Maybe hurt bad. And guys do all this in their head, or in their gut, and they can avoid some trouble this way, if they're any good at it, if they're not jerks, if their judgement isn't impaired. So I read One Trick Rip Off, and it is cover to cover inspired comic art genius. I'm pretty sure in an art fight Paul Pope would hospitalize me. I'd need transfusions. The police would come for a visit, with plenty of pointed questions. But they wouldn't get anything out of me, because Paul Pope would be my new friend. For life. 0 of 1 people found the following review helpful. Four Stars By Pedro Ribeiro It's nice, but remember... Pope's masterpiece is HEAVY LIQUID

Young lovers Tubby and Vim want to escape escape the mistakes they've made, the lives they've lived, and the dirty city weighing them down. Their plan is simple all they have to do is rip-off Tubby's pals, the One Tricks, the toughest street gang in LA. If they pull it off, they're set for life. If not, their lives won't matter much anyway! Included in the "Deep Cuts" section is a bounty of unpublished and rare work Pope did in the '90s, including the legendary "Supertrouble" manga, created for Kodansha in Japan.

.com Paul Pope's explosive work is igniting the minds of readers across the world. His artwork looks like what "an Elvis 45 played on a hi-fi with your finger" would sound like. Even though he has two previous comics novels under his belt (Sin Titulo and The Ballad of Dr. Richardson) and pages upon pages of work finished for his Japanese publisher, The One Trick Rip-Off is his first novel that is widely available in English. Two young lovers, Tubby and Vim, want to escape--escape the mistakes they've made, the lives they've lived, and the city that weighs them down. All they have to do is rip off the One Tricks, the toughest street gang in Los Angeles. The One Trick Rip-Off is infused with pure Paul Pope: Indian food, wildly romantic ideals, a sweaty young girl. If you like the moody, darkly romantic music of Nick Cave, you'll groove to The One Trick Rip-Off.
