The previous four books had a lot more drama and this one didn't. There are two side stories at the end, which I liked but it means the final volume really just concludes book 4's drama and doesn't have any new situations for the main characters to overcome. I liked the series a lot. This was the weakest book out of the 5 volumes.0 of 0 people found the following review helpful. I really enjoy this novel seriesBy LindaI really enjoy this novel series, so I am very excited that I own the last novel. The condition of this novel is perfect! No damage what so ever.

Wataru is still reeling from learning that Youichi is not only delaying his return from visiting his old girlfriend in New York, but that Youichi has returned his ring, as well. With graduation looming, is this the end for the lovers, or merely a new beginning?
