James Stokoe : Orc Stain Volume 1 TP before purchasing it in order to gage whether or not it would be worth my time, and all praised Orc Stain Volume 1 TP:

1 of 1 people found the following review helpful. Orc Stain is creative masterpieceBy GronchManglerOrc Stain is a creative masterpiece. It was entirely made by one man, james Stokoe. This book just works. Everything about it comes together perfectly. First of all, the illustrations are impeccable. This is Orc country to the fullest. Every single panel will leave you looking for details. Even the props are unique when you look closely. The characters are all very

memorable. They all are unique and have their own personalities. Some are smart, some are funny, some are evil, some are dim witted, etc...The Orc society feels alive and real. The story is rather unique but fairly simple. Don't worry though, whatever the story lacks in detail it more than makes up for in content. What really surprised me about this trade was just how funny it was. Some double crossing leads to some genital chopping which in turn leads to more attempted genital chopping all while an Orc war lord is looming in the picture. I could even go on about the color scheme. After you spend a good ten minutes just looking at the cover, and you flip the first page to read, "For a Million Millenia the world has cracked and convulsed under the indomitable mob of the Orc." you know your in for a ride. Stop reading reviews. Buy this book.1 of 1 people found the following review helpful. Amazing stuff. Filled with the fine detail of someone ...By S. CurrieAmazing stuff. Filled with the fine detail of someone truly in love with their creation as opposed to just blowing through twenty pages to get to some Big Reveal. The spirit of Heavy Metal and a nice break from the superhero blah blah blah that dominates the comic universe. Not for the squeamish though...wait till you see what they use for currency in their world!0 of 0 people found the following review helpful. I liked it. The world is unique and newBy CustomerI liked it. The world is unique and new. The orcs are basically what you would expect an orc to be so there isn't much deviation from traditional fantasy so you're not getting lost too much. However, this is not normal fantasy. Expect John Carpenter's "The Thing" like gadgets. Imagine an elite guard whose newly decapitated head can now be used as a bomb. Some surreal things, makes this comic feel fresh.

For a million millennia the world has cracked and convulsed under the indomitable mob of the orc. Savage, bloodthirsty creatures, they are without number, staining nearly every corner of the globe. The mighty Orc Tzar, newest leader of the mob, marches ever north to find the lost organ of a forgotten god. Only a lone, one-eyed orc with a mysterious gift can find the key to breaking the cycle forever.
