Jason Aaron, Al Ewing : Original Sin: Thor Loki: The Tenth Realm before purchasing it in order to gage whether or not it would be worth my time, and all praised Original Sin: Thor Loki: The Tenth Realm:

0 of 0 people found the following review helpful. Solid Book that Ties Angela's Origins into the Asgardian Mythos (Don't Need to Have Read all of Original Sin to Read This)By clairetoldmetochangemyscreennameAngela was an intriguing get for Marvel. A Spawn character who had been wrapped up in legal disputes until she was turned over to

Marvel a few years ago, the character was literally spat out of a rift in time after the terrible Age of Ultron event (comic not movie) and eventually joined the Guardians of the Galaxy. Since then Marvel has gone back and forth attempting to find a solid place for her. This book is essentially part one of what we can call the Asgardian Angela arc as it features an overhauling of Angela's origins to tie her in with Thor and the other Asgardian mythos characters. During the Original Sin event, Thor is exposed to the eye of the Watcher which imparts ancient secrets to him including the fact that Thor had a baby sister long ago who was killed during a war between Asgard and the lost Tenth Realm: Heven home of the angels. Unlike Christian angels, these warlike creatures only bargain and interact with others on the basis of trades. Everything has its price to them. Thor and Loki go to war with these newly revealed angels in search of their long lost baby sister. The artwork in the book is tremendous and the writing is great overall. It certainly helps to know the basic framework of the Original Sin storyline to understand how Thor is exposed to the Watcher's secrets, but you don't need to have read the full book to get it. This trade has a brief but effective summary of the lead up events that will suffice for most. All in all the manner in which this book ties Angela's history to Thor's is fun, without throwing away the characteristics that make Angela a fun addition to the Marvel canon in the first place.

By Jacob Alvarado
One of a few Original Sin tie-ins I've read and this is on par with the rest BUT it also is the most impactful with the most ramifications (just as Original Sin was for Thor). We get a couple artists here, everything in the 10th Realm is done by Thor artist Simone Bianchi while Lee Garbett covers most everything else. Pretty much an origin for Angela in Marvel while building on Loki's story. I'd liked to see them carry on with some children of Odin stuff after the War of Realms.

2 of 2 people found the following review helpful. Good read, but makes everyone in the book look stupid
By Customer
It's Angela from Spawn people, how cool is that? It's just sad that all those Angels and Thor were too stupid to piece together who Angela is. "Oh wait, this child is the same age as when we killed that daughter of Odin. she is the only one in our Heven kingdom without wings." DDDDUUUURRRRRR!!!! Angela also claims to have seen Thor when riding with the Guardians, but never talked to him or addressed him, but she knew who he was. Only time she attacks him or talks to him is when she's on her way to go back to Heven. Stupid, so stupid. I took a star from this because this book makes everyone look stupid. Odin is the all seeing father and never saw his own blood on earth? Come one!!!

Thanks to the events of Original Sin, the deepest secret of the Nine Realms has been revealed: namely, the existence of a Tenth Realm! Now, Thor and Loki must embark on a quest to discover this strange new world - and to discover the sister that Thor never knew he had: Angela! But can Loki be trusted? And will brother and sister murder each other before the truth comes out? COLLECTING: ORIGINAL SIN: THOR LOKI - THE TENTH REALM 1-5
