**Jason Aaron, Ed Brubaker, Mark Waid : Original Sin** before purchasing it in order to gage whether or not it would be worth my time, and all praised Original Sin:

0 of 0 people found the following review helpful. Zzzzzz.....By Alberto LaureanoThis was boring. Another non-event event book like the other ones marvel has been running for over a decade. The only good thing about this book was the art by Mike Deodato. Otherwise, not much happens.....at least not that is shown in this book. You had to buy other books that would somewhat tell you what happened here. Oh, and it sets up female Thor by making the real Thor

unworthy of holding his hammer....but they don't explain how. It's a "complete" book that requires you to read other books to get a clear picture, and to continue buying other books afterwards to get the full picture and the continuation of points set up in this series. Not worth your time and money...0 of 1 people found the following review helpful. Turns the established MU continuity on its head...but in a good way.By jmiersWow! I really really hate it when creators try and change established continuity with a cheesy "you didn't know it fact" that changes everything, like the Gwen Stacy-Norman Osborne love affair thing that J. Michael Straczynski over in Spider-Man. Don't get me wrong...I think he's a great writer and it was a great story, but not for Spider-Man. I mean, this could've easily been an old story he had rattling around in his head and then dusted it off and threw Peter Parker into it. It was just sloppy and awkward.But...Jason Aaron truly changed the Marvel Universe in a plausible and yet enjoyable way! I won't go into spoilers, but it's been a VERY long time since I've been this impressed by. Think...MIB meets This Is Your life TV show. It started a bit forced, and there were a few things which could've been unveiled a little differently, but I'm definitely NOT complaining.If you are a Marvel fan, this is required reading.0 of 1 people found the following review helpful. No complaints hereBy MebcrowItem came as promised, great book, thanks for the quick shipping.

Who shot the Watcher? Uatu, the mysterious space-god who's been watching mankind from the moon for as long as we can remember...is dead. Thus begins the greatest murder mystery in Marvel history! As Nick Fury leads the heroes of the Marvel Universe in an investigation, other forces are marshaling and other questions are arising. Why is Black Panther gathering a secret team of his own, including Emma Frost, the Punisher and Dr. Strange? Who is the Unseen? What was stolen from the Watcher's lair? Fury's cosmic manhunt leads to the far corners of the universe and beyond, but just when the Avengers think they've cornered their murderer...everything explodes, unleashing the Marvel Universe's greatest secrets and rocking the heroes to their core! What did the Watcher see? What was the Original Sin?COLLECTING: Point One 1 (Watcher story), Original Sin 0-8.

About the AuthorJason Aaron is an American comic book writer, known for his work on titles such as The Other Side, Scalped, Ghost Rider, Wolverine and PunisherMAX
