I feel that this is not the most interesting representation of his best works. Some nice ideas and artwork but the stories are pretty short and thin. The essay is great. It's great that

someone is compiling these stories and I'll check out other volumes. .0 of 1 people found the following review helpful.  
Crummy charlton comicsBy grafdogin a nice HC.These are great light reading material to kill some time with.

This volume collects sci-fi and horror comic stories from one of the architects of the Marvel Universe.Outer Limits features more than 200 meticulously restored, full-color comics pages by Ditko in his early prime. This volumes suspense and mystery storiesthanks to the inspiration Ditko took from space travel comicsheavily weighted to the science fiction genre. Ditko rocketed into the vast outer reaches of the universe to craft tales that tapped into the fears and aspirations of middle America coming to terms with the Cold War and the beginning of the space race with Soviet Russia. Full-color illustrations throughout
