Last is a series published by Marvel which were originally released as limited series in magazine form. It's the shortest of the adaptations although the book is certainly not the shortest of the series. I was worried when I saw this but author Eric Shanower and Artist Scottie Young do a wonderful job as usual. The story has a definite ending since the author intended to end the Oz books here (although he didn't) so it was

a good place for the adaptations to end. Great comic and faithful, loving adaptation of a fun children's book. 4 of 4 people found the following review helpful. A wonderful beautiful series  
By Customer I love these books and the pictures are great. The adaptation by Eric Shanower is excellent as it shows Baum's marvelous puns and wit. However I wish they would continue the series and hope they do. These books are great for kids as they would introduce them to Baum's in a whole new way.

By RB This book, like the others in the series, was amazing. I love the illustration style and the way Frank L. Baum's Oz stories are related to the reader. Interestingly, this book had different dimensions from the others in the series, which bother me immensely, but I have yet to find a listing for the other size...
