Kieron Gillen : Phonogram Volume 3: The Immaterial Girl before purchasing it in order to gage whether or not it would be worth my time, and all praised Phonogram Volume 3: The Immaterial Girl:

2 of 2 people found the following review helpful. VERY good series. If you liked the previous Phonogram volumesBy N. RamonA very, VERY worthy capstone to a very, VERY good series. If you liked the previous Phonogram volumes, this one's definitely worth reading as well. If you haven't read the previous ones, you can still get the gist of this one, but I'd certainly recommend picking up the older ones as well.0 of 0 people found the following review

helpful. Five Stars
By oceanGreat read for music lovers and DJs
3 of 5 people found the following review helpful. Silly and over-clever tale of music and magic
By PaulAllardNot particularly clear, this volume is about the music industry in the last decade with a healthy dose of magic thrown in. Our main character, Emily, has surrendered half her personality to the Adversary. There's lots of references to 1980s music videos but it's all a bit too clever-clever for my taste. I gave up on about two-thirds of the way through as I hoped that it would become clearer and less silly. Sorry but not for me.

The creators of the award-winning *THE WICKED + THE DIVINE* return to their founding critical smash, *PHONOGRAM* with *THE IMMATERIAL GIRL*. In a world where music is magic, phonomancer Emily Aster sold half her personality for power. Now, after a decade of brittle perfection, the deal starts to go bad as the girl behind the screen comes looking for revenge. You'll never look at Take On Me's video the same ever again. Includes copious making of material.
