**Amy Chu : Poison Ivy: Cycle of Life and Death** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Poison Ivy: Cycle of Life and Death:

5 of 5 people found the following review helpful. Great Start...By HotPinkWriter This series had a great start. Straight up amazing art, not to mention some much needed girl power....but it kind of loses that momentum as it goes. The art will very plainly change, and when it does, numerous little details about a character's appearance will change back and forth. Like Catwoman's zipper, or Ivy's shoes. Little things like that just tend to bug me. Changing artists is

understandable but it shouldn't suffer continuity. As for the story, it felt like a small continuation of Gotham City Sirens, but Ivy's side of things, which was nice. I also love the idea of giving Ivy her own story and enjoyed this mature version of her. The second half of the story gets a bit odd and it's here where things fall a bit....I won't spoil it but I must say I actually didn't see the ending surprise of Who-Dunnit coming. Should have, but hadn't so I can at least say that after the strong start, the end feels a bit redeeming for the odd middle, and I would buy another story with Ivy to see more of this version and her interactions with her new human pal and Selina. As for the rest....meh. If you like the Gotham City Sirens and don't mind story's with mutations of nature (albeit kind of cute ones) then buy this short book. 1 of 1 people found the following review helpful. Good, quirky story By Julie Duvall Really nice seeing Poison Ivy in her own book, story is good but gets kind of weird, but hey, that's what comics are for! 1 of 1 people found the following review helpful. Five Stars By Whitecrow Finally a solo adventure of Ivy's adventures. Well worth the read.

**POISON IVY BLOSSOMS INTO HER FIRST SOLO ADVENTURE!** There's animal. There's vegetable. And there's somewhere in between. That's where Dr. Pamela Isley, a.k.a. Poison Ivy, finds herself. Instead of battling the Dark Knight, she is now a researcher at the Gotham Botanical Gardens, studying the possibility of creating plant-human hybrids. But when her fellow scientists start turning up dead, she's both the natural leading suspect and the only person (or plant) who can crack the case. To solve the mystery, Poison Ivy must team up or throw down with her oldest friends and closest frenemies, from Harley Quinn to Catwoman to the Swamp Thing. Can she keep things under control, or will she be responsible for a deadly new harvest? Find out in **POISON IVY: CYCLE OF LIFE AND DEATH**. Sprouting from the brains of the up-and-coming creative team of writer Amy Chu and artist Clay Mann, it's a mean, green murder mystery starring one of Batman's greatest rogues! Collects **POISON IVY: CYCLE OF LIFE AND DEATH #1-6**.

"Amy Chu is a comic book writer whose work is deserving of wider recognition in the industry." - Comics Alliance About the Author Amy Chu is cofounder of Alpha Girl Comics, publisher of the anthology series Girls Night Out. Her work has appeared in DC's SENSATION COMICS FEATURING WONDER WOMAN, Image Comics' CBLDF Liberty Annual, and the DC Comics/Vertigo anthology CMYK.
