and others make appearances. Jessica Jones is more likable in this volume than the last. The colors pop more in this volume, too, and can't wait to read Vol. 3 after reading this. The "bonus" Christmas issue in here is preachy and really cheesy, of course. 0 of 0 people found the following review helpful. I love this book By David E Houston III love this book. Anything David Walker writes, I buy. Then add Sanford Greene and it's Luke Cage and Danny Rand back together. I was in from issue 1.0 of 0 people found the following review helpful.
