Firstly this IS a very cool comic, but there are a few discrepancies noted here. The book has 96 pages - not 120. Also the dimensions are 10 3/4 X 8 1/4 One other note is it is entirely in Black White - except for the cover. 0 of 0 people found the following review helpful. Superb Basil Wolverton By ian Powerhouse is a lot of fun and Basil Wolverton is one of the very greatest and most imaginative comics artists ever. It's kind of a pre underground comic with elements of the old men's magazines. I treasure my copy 0 of 0 people found the following review helpful. Thanks, I've had some already By Steve D. Earlier in my life I'd have given this lovely little reprint edition a higher grade. But despite the beautiful reproduction of the cover of the original Powerhouse Pepper #3 on the cover, the interiors are the same bunch of late Pepper stories from the Abe Goodman

public domain-ish cheesecake/joke magazines that have been making the rounds for the last few years, and unless you are a rabid completist, you do not need this well-produced magazine in your collection.

Eleven "Powerhouse Pepper" strips, three "Supersonic Sammy" stories, and one "Hot-head Hotel" make up the meat of this marvelous tome a worthwhile wad of Wolverton (early Mad, Marvel monster comics, Plop, Spacehawk, "Lena the Hyena" in Li'l Abner) wit we're sure you'll want to welcome (with a wail), whisk up, weep over, wince over, whinny and whoop over.
