AAP Committee on Coding : Principles of Pediatric ICD-10-CM Coding before purchasing it in order to gage whether or not it would be worth my time, and all praised Principles of Pediatric ICD-10-CM Coding:

0 of 0 people found the following review helpful. Good specialty treatment of ICD-10 rulesBy Andy SpoonerAimed at the coder, but useful also for the pediatric clinician who needs to work with coders. Especially useful for multi-specialty pediatric environments.0 of 1 people found the following review helpful. Two StarsBy rokdok95Waste of money.

This practical readiness and training tool offers quick and easy access to a wealth of pediatric-specific guidance for on-targetnbsp;ICD-10-CMnbsp;diagnosis coding. Chapters devoted to individual disease catagories or organ systems step users through all the essentials of appropriate ICD-10-CM code selection. Separate sections in each chapter include Guideline instructions Coding scenarios "Notable Change" alerts (keynbsp;ICD-9-CM/ICD-10-CMnbsp;differences) "Review What You Have Learned" And much more!

About the Author Jeffrey Linzer Sr, MD, FAAP, FACEP, is the associate medical director for compliance for the Emergency Pediatric Group/Division of Pediatric Emergency Medicine, Children's Healthcare of Atlanta and associate professor in the Departments of Pediatrics and Emergency Medicine at Emory University School of Medicine. Dr Linzer has been a member of the American Academy of Pediatrics (AAP) since 1987 and is active in the AAP sections on Emergency Medicine and Transport Medicine. He is also a member of the AAP Committee on Coding and Nomenclature and serves as the AAP representative to the ICD-9-CM Editorial Advisory Board. Additionally, Dr Linzer has taken on the role as chair of the first ever pediatric topical advisory group (TAG) as ICD undergoes its 11th revision under the auspice of the World Health Organization. Dr Linzer is an expert in ICD guidelines and implementation and has been actively involved in the ICD-10-CM transition in the United States
