Jane Rice : Principles of Pharmacology for Medical Assisting (Principles of Pharmacology for Medical Assisting Principles) before purchasing it in order to gage whether or not it would be worth my time, and all praised Principles of Pharmacology for Medical Assisting (Principles of Pharmacology for Medical Assisting Principles):

0 of 0 people found the following review helpful. Terrible book.By MI4LifeHorrible pharmacology book. Not easy to understand and some of the drugs are out of date.0 of 0 people found the following review helpful. Four StarsBy xiaowenwanguseful0 of 0 people found the following review helpful. Multiple ErrorsBy A. StilesWe are currently on unit 14, we have found multiple typo errors, and incorrect review answers. The teacher gets her test from the cd that comes with the teachers manual and there are questions on the test that aren't mentioned in the book. I don't recommend this book for anyone at all. But yet the book agent to the college keeps pushing this book and ones like it.

PRINCIPLES OF PHARMACOLOGY FOR MEDICAL ASSISTING, 5E provides a comprehensive introduction to pharmacology for medical assistants and other allied health professionals. Beginning with a mathematics review, math concepts are presented in a clear and concise manner with step-by-step explanations and many examples, followed by practice problems for immediate reinforcement. Once mastered, learn about adult and pediatric dosage calculations, as well as current and commonly used practices, procedures, medications, and drug preparations in today's medical office.

Diana Kendrick, RMA (AMT), RN.Griffin Technical College, Griffin, GA, Medical Assisting Instructor."[Jane] Rice always brings new and up-dated information to her books. I never fail to learn something new each time I read the book or lecture a chapter. Her attention to detail, knowledge of pharmacology, and passion for education is evident in Principals of Pharmacology for Medical Assisting."About the AuthorJane Rice was Director of the Medical Assisting Program at Coosa Valley Technical College in Rome, Georgia for more than 30 years. During her tenure, she obtained AAMA accreditation for the program -- the first in the state to do so -- and served as an AMA/AAMA Program Evaluator and member of the AAMA Editorial Board. In addition to this text, she has published journal articles in The Professional Medical Assistant, and several other textbooks, including Medical Terminology for Health Care Professionals, Medical Terminology: A Word Building Approach, Medical Terminology with Human Anatomy, The Terminology of Health and Medicine, Medications and Mathematics for the Nurse, and SpellRight. Ms. Rice's commitment to health education has earned her several awards, including the Georgia Occupational Award of Leadership (GOAL), Georgia State Department of Technical and Adult Education Commissioner's Award of Excellence, and Georgia Vocational Association's Health Occupations Educator of the Year.
