**Stuart E. Mirvis MD FACR, Jorge A Soto MD, Kathirkamanathan Shanmuganathan MD, Joseph Yu MD,
Wayne S Kubal MD : Problem Solving in Emergency Radiology, 1e** before purchasing it in order to gage whether
or not it would be worth my time, and all praised Problem Solving in Emergency Radiology, 1e:

Optimize diagnostic accuracy in the emergency department with Problem Solving in Radiology: Emergency Radiology, a new addition to the popular Problem Solving in Radiology series. Published in association with the American Society of Emergency Radiology, the medical reference book is designed to help experienced radiologists, residents, or emergency medicine practitioners accurately address problematic conditions and reach the most accurate diagnosis. "This book will have broad appeal to many audiences. It will prove an invaluable resource to any practicing

radiologist providing coverage of emergency department imaging, regardless of whether or not the radiologist self-identifies as an emergency radiologist." Foreword by: Stephen Ledbetter, Chief of Radiology Brigham and Womens Faulkner Hospital, May 2015 Access problem-oriented content that helps you quickly and accurately diagnose patients. Focus on the core knowledge needed for successful results with templated, concise chapters containing both traditional and unusual presentations of pathology. Each chapter will include: Typical Presentation; Variants; Mimickers (what looks like this pathology, but isnt); and Pitfalls (how a diagnosis can be missed and how to avoid it). Stay up to date on today's hot topics in radiology, including radiation concerns when using total body CT for trauma assessment; trauma in the pregnant patient; imaging pediatric craniocerebral trauma; and penetrating trauma to the torso and chest. Access the full text online at Expert Consult.

"This book will have broad appeal to many audiences. It will prove an invaluable resource to any practicing radiologist providing coverage of emergency department imaging, regardless of whether or not the radiologist self-identifies as an emergency radiologist. It is required reading for every diagnostic radiology resident or fellow and will be of great interest to emergency medicine physicians, trauma surgeons, and the many other physicians and care providers who consult on patients in the ED. Dr. Mirvis and colleagues have assembled what is sure to become the new reference text on emergency radiology." Foreword by: Stephen Ledbetter, Chief of Radiology Brigham and Womens Faulkner Hospital, Feb 2015 "This is a well-done book on emergency radiology. The print and online versions complement one another well, allowing readers to access the book anywhere." -Maria Kristine Goertz, M.D., Regions Hospital and Level 1 Trauma Center (Doodys Service)
