**John C. Flynn : Procedures in Phlebotomy** before purchasing it in order to gage whether or not it would be worth my time, and all praised Procedures in Phlebotomy:

0 of 0 people found the following review helpful. EXCELLENTBy Mrs. HenryVERY GOOD BOOK, GREAT HELP. SERVICE WAS EXCELLENT AND THE BOOK CAME RIGHT ON TIME AND IN GOOD SHAPE.0 of 0 people found the following review helpful. Just what I neededBy BlkBookWormBook was used but in A+ condition. I mean what can you really say about a school book? It was what I needed.

Designed to provide an easy-to-read introduction to the practices and procedures of phlebotomy, this textbook focuses on the basics of phlebotomy and key techniques for blood collection. Its strengths include thorough and concise content, clear procedures, and excellent review questions. The new edition features an expanded glossary, equipment chapter, and certification exam. New photographs, line drawings, and a new overall design enhance the material's visual presentation, and updates ensure all equipment and safety information conforms to current standards. An insert of color illustrations in the front of the book shows evacuated tube characteristics, providing a quick reference for determining the appropriate type of tube for blood collection of common tests. Competency score sheet checklists enable readers to evaluate their mastery of newly-acquired skills related to the most critical and important steps in phlebotomy procedures. Fill-in-the-blank review questions at the end of each chapter act as a self-assessment tool for measuring learning outcomes. An expanded, 130-question exam mirrors the multiple-choice format of the actual phlebotomy certification exam, providing complete review and test preparation. The updated Equipment chapter describes the latest modern equipment used in practice. An expanded Glossary defines important words in the back of the book.

About the Author John C. Flynn, Jr., PhD, MS, MT(ASCP), SBB, Professor and Chairman, Division of Allied Health and Physical Education; Director, Medical Laboratory Technician and Phlebotomy Programs, Montgomery County Community College, Blue Bell, PA
