The forms are old and the book is not the greatest to follow as you have to keep looking in other areas of the book to get details and formatting.. Time for a new edition!0 of 0 people found the following review helpful. Good! AWESOME PERFECT LOVE IT!!!!By Samson DelarGood! students the opportunity to create, retrieve, and revise medical documents. Students "work" in a medical center and rotate through ten medical specialty units. Each unit contains about four hours of production work.
