**A. Embry Burrus : Professional Communication in Speech-Language Pathology: How to Write, Talk, and Act like a Clinician, Second Edition** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Professional Communication in Speech-Language Pathology: How to Write, Talk, and Act like a Clinician, Second Edition:

1 of 1 people found the following review helpful. Absolutely helpful! By Evelyn This book is absolutely helpful for beginning clinicians. The book has various examples on the report writing process and much more. 0 of 0 people found the following review helpful. Easy to read but I did not use it much ... By Opeyemi Idowu It was an okay book. Easy to read but I did not use it much for class 0 of 1 people found the following review helpful. Five Stars By Xiaoshu Li good

In this practical textbook, now in its second edition, the authors introduce student clinicians to the various types of written and verbal communication they will encounter across three different clinical settings: university clinics, medical settings, and public schools. The text is written in a student-friendly manner, with appendices that provide examples of correspondence, diagnostic and treatment reports from all three settings, a professional term generator, and IEP paperwork. Chapters cover verbal interactions with families, allied professionals, and supervisors. Also included are scenarios written in the form of vignettes that address issues of ethics, confidentiality, and safeguarding clinical communications. For the second edition, the authors have added a new chapter on working with multicultural clients and their families. The second edition also includes expanded coverage of: \*Basic counseling of families, caregivers, and patients with regard to diagnostic results, recommendations, referrals, therapy goals, home programs, and progress

About the Author Embry Burrus is an Associate Clinical Professor in speech-language pathology at Auburn University. Her areas of interest include children with developmental delay, children and adults who stutter, and supervision. She is also the author of *Mama and Margaret*, a memoir about her older sister with Down syndrome. Before becoming a clinical professor, she practiced in Atlanta, Georgia, where she worked with children in the public schools, Head Start, and Early Intervention. Laura B. Willis is a certified Speech-Language Pathologist and an Assistant Clinical Professor at Auburn University in Alabama.
