Patricia Schnering : Professional Review Guide for the CCS Examination, 2016 Edition includes Quizzing, 2 terms (12 months) Printed Access Card before purchasing it in order to gage whether or not it would be worth my time, and all praised Professional Review Guide for the CCS Examination, 2016 Edition includes Quizzing, 2 terms (12 months) Printed Access Card:

28 of 30 people found the following review helpful. This book doesn't waste your time!By Louise S.First 60 pages are jam-packed with the essential high points of ICD diagnosis and CPT. Also a good overview of the differences between inpatient and outpatient coding. Best to follow along closely with your coding books, with a focus on the guidelines. The entire rest of the book is questions...with answers and rationales. Good rationales, not just canned ones that repeat

over and over. Two mock exams at the end with an option to take them online just as you would take the CCS. 7 of 7 people found the following review helpful. Beware! Book is full of incorrect answers! By NYmom This book is full of errors! I am using this to prepare for the CCS exam in an accredited program so my Professor has access to the errata and even that has errors. Not only are there incorrect answers in the answer key, but even many of the questions themselves are incorrect and/or none of the multiple choice options are correct. And the case studies in the book, forget them. So many errors, it makes you doubt everything you know! Very disappointed!! It would have been a wonderful way to prep if not for the complete lack of editing/verification. 7 of 7 people found the following review helpful. The AHIMA study guide is better (and cheaper) By seamus There are so many blatant errors in this book (not only breaking of coding rules and guidelines but even simple typos and invalid codes) that I cannot trust it for accuracy whatsoever. I am returning it. The AHIMA study guide is better (and cheaper), as far as having less errors, although this one is more comprehensive, with way more questions and scenarios. Neither study guide unfortunately is like the actual exam at all from colleagues' feedback that having taking the CCS.

Take your career to the next level with PROFESSIONAL REVIEW GUIDE FOR THE CCS EXAMINATION, 2016 EDITION, an essential, effective preparation tool for the American Health Information Management Association's (AHIMA) Certified Coding Specialist (CCS) exam. This review guide gives you practice interpreting documentation and applying your knowledge by assigning codes to diagnoses and procedures for a variety of patient settings. Content has been thoroughly updated with ICD-10-CM content to map to the latest AHIMA exam domains. Use the online quizzing tool to create quizzes, sort quiz content by subject area or domain, and set time limits for exams. You'll have a more personalized exam preparation experience with PROFESSIONAL REVIEW GUIDE FOR THE CCS EXAMINATION, 2016 EDITION.

"I do recommend this book to colleagues for adoption in their coding certificate programs and to individuals studying for the CCS examination. The review book is well organized and describes the necessary content areas the learner needs to study. The general and specific questions provide what is expected on the examination." "it is the best study tool available to prep for the CCS. When I took my CCS examination, this is my primary study method." About the Author Patricia Schnering is an adjunct instructor of HIM at St. Petersburg College, and serves on its advisory board. In addition to experience as an HIM supervisor and consultant, she is the founder and owner of PRG Publishing Inc., where she published the first Professional Guides. Ms. Schnering has served as president of GCHIMA and on FHIMA's board of directors, where she twice received the FHIMA Literary Award. She is also a member of AHIMA and the Assembly on Education (AOE). In addition to a B.S. in business administration from the University of South Florida, she is a graduate of the health information management program at St. Petersburg College, and holds both CCS and RHIA certifications.
