Robert Goldfarb, Yula Cherpelis Serpanos : Professional Writing in Speech-language Pathology and Audiology Workbook before purchasing it in order to gage whether or not it would be worth my time, and all praised Professional Writing in Speech-language Pathology and Audiology Workbook:

With the same spirit of joy, irreverence, and fun, the authors of Professional Writing in Speech-Language Pathology and Audiology have produced a companion Workbook. It provides instruction in, and opportunities to improve the accuracy and clarity of writing that students and professionals need for success in clinical practicum, evidence-based practice, and career advancement. The nine chapters and accompanying CD use the knowledge and skills assessment

(KASA) format to address common errors in usage and scholarship, as well as compliance with ethical issues, use of Internet and library resources, and strategies for oral presentation. The Workbook may be used as a stand-alone text for clinical practicum or for a professional writing course. The authors have combined it with the 2009 text for an introductory course in research methods.

About the Author Robert Goldfarb, Ph.D., is Professor and Program Director of Communication Sciences and Disorders at Adelphi University and Emeritus Professor and former Executive Officer of the Ph.D. Program in Speech, Language, and Hearing Sciences at the CUNY Graduate Center. He has published over 30 journal articles and book chapters in speech, language, and swallowing disorders of aphasia, dementia, and schizophrenia; edited *Ethics: A Case Study from Fluency*; and is also co-author of *Professional Writing in Speech-Language Pathology and Audiology, Techniques for Aphasia Rehabilitation Generating Effective Treatment (TARGET)*, and *The Stocker Probe for Fluency and Language* (3rd ed.). An ASHA Fellow, Dr. Goldfarb has received the Professional Achievement Award from the New York City Speech, Hearing, and Language Association and the Distinguished Achievement Award from the New York State Speech-Language-Hearing Association.
