Colonial Marines have taken possession of an "abandoned" alien spacecraft-only to discover its owner is still onboard! Instead of heading to Earth as expected, the humans end up on LV-223 (the planet where the events in the film Prometheus took place). There they must contend with hostile alien life forms, as well as the mysterious "Engineers" who are determined to wipe out not just them, but possibly all of humanity! This is the second chapter in the Life and Death story cycle-the follow-up to 2015's epic Fire and Stone crossover event. Before this tale is complete, the story lines of Predator, Prometheus, Aliens, and Aliens vs. Predator will all converge!
