**Brandon Graham, Simon Roy : Prophet Volume 5: Earth War** before purchasing it in order to gage whether or not it would be worth my time, and all praised Prophet Volume 5: Earth War:

1 of 2 people found the following review helpful. Five StarsBy Tim Scottgreat0 of 1 people found the following review helpful. Rocks your SocksBy EGreat read, strongly recommend for any sci fi fans who like great prose. Amz wants more words in the review, blah blah blah. Seriously though, great comic.8 of 8 people found the following review helpful. Bravo!By BabytoxiePROPHET VOLUME 5: EARTH WAR concludes an often baffling but always

fascinating comic series featuring a Rob Liefeld character from the earliest days of Image Comics. Writer/artist Brandon Graham has continued the Prophet storyline in an ambitious and wholly-unexpected way by jumping 10,000 years into the future and turning the title into a sprawling sci-fi epic. In this new setting, the Earth is occupied by various alien races, and humans are an afterthought. Volumes 1 and 2 focused on innumerable clones of John Prophet awakening from hibernation across the galaxy in an attempt to "restart the Earth Empire"; however, Volumes 3 and 4 gave that mission an ominous context. After sweeping the reader along to distant worlds, Volume 5 brings the action back to Earth - specifically, the Towers of Thailu Vah - as old man Prophet leads the Free Armies against his own kind. The scope of this storyline has grown tremendously over the course of four years, and Volume 5 suffers somewhat for it; specifically, in trying to focus on a few main characters while also capturing the immensity of the final showdown. As a result, the ending comes across as rushed and unbalanced, but at least it wraps things up. Additionally, the story is capped off with an assortment of scenes from the past, present, and future that will hopefully provide a framework for more material. Joining Graham on EARTH WAR is co-writer and artist Simon Roy, as well as artists Giannis Milonogiannis, Ron Ackins, and Grim Wilkins. One of the highlights of this series has been the close collaboration between the creators, to the point that the changes in writing and art styles in no way hamper the flow of the story. The final section of the book contains some storyboards, concept art, and a short "secret origin" of the dolmantle by Shannon Lentz and Aaron Conley. Graham's Prophet is one of the most enjoyable comics I've ever read; in fact, it prevented me from giving up on comics altogether when it debuted in 2012. Re-reading the whole thing, it still fills me with a sense of wonder, so I applaud all of the creators involved.

THE EPIC CONCLUSION TO PROPHET! A clone general goes against his Brain-Mother overlords to gain control of an alien egg. Collects PROPHET: EARTH WAR #1-6.
