Michele DeMeo : Quality Framework for Today in Healthcare: A Three Step Process before purchasing it in order to gage whether or not it would be worth my time, and all praised Quality Framework for Today in Healthcare: A Three Step Process:

Building a framework for an effective healthcare quality for your facility is imperative today. With ever changing norms and a population with information at the tip of their fingers, cost margins minimal at best and complex needs,

quality must take on a new and fresh execution that is built to continue to evolve.
