David Phillips : Quality of Life: Concept, Policy and Practice before purchasing it in order to gage whether or not it would be worth my time, and all praised Quality of Life: Concept, Policy and Practice:

Quality of life is one of the most important issues facing the world today and is central to the development of social policy. This innovative book discusses this crucial topic, assessing the criteria for judging attempts to raise quality of

life, including the satisfaction of basic and social needs, autonomy to enjoy life and social connectivity. It considers key topics such as: individual well-being and health-related quality of life human needs - living fulfilling and flourishing lives poverty and social exclusion social solidarity, altruism and trust within communities. *Quality of Life* is the first systematic presentation of this subject from both individual and collective perspectives. It provides a powerful overview of a concept which is becoming increasingly prominent in the social sciences and is essential reading for students of social policy, sociology and health studies.

About the Author David Phillips is Senior Lecturer in Social Policy in the Department of Sociological Studies, University of Sheffield, UK. He has undertaken research on a wide range of topics in the health and social services, on community solidarity within minority communities and on quality of life. At present, he is studying the contribution of trust, reciprocity and altruism to social cohesion.
