Dale A. Miles, Margot L. Van Dis, Catherine W. Jensen, Ann Bruno Ferretti : Radiographic Imaging for Dental Auxiliaries before purchasing it in order to gage whether or not it would be worth my time, and all praised Radiographic Imaging for Dental Auxiliaries:

This is the second edition of a text tailored to the needs of dental hygiene and dental assisting classes. The text is organized to complement the way courses are organized with discussions of technique, procedures, film processing, the basics of radiation physics as well as interpretation of images. Review questions feature at the end of each chapter and a chapter on panoramic radiography is included.
