But the part about using lemon juice to desolve kidney stones did not work.I followed the prescribed technique, which failed to work, so as a further test, I took one of my kidney stones I had passed a while back, and soaked it in mostly lemon juice for 5 days, measured before and after with a digital caliper, and there was zero change.My favorite is Paul Pitchford's "Healing with Whole Foods."0 of 1 people found the following review helpful.
