**Kurtis J. Wiebe : Rat Queens Volume 1: Sass Sorcery** before purchasing it in order to gage whether or not it would be worth my time, and all praised Rat Queens Volume 1: Sass Sorcery:

2 of 2 people found the following review helpful. Sass, magic, and strong female characters! By JessiFour mercenary girls - Betty, Dee, Hannah, and Violet are sent to clean out the goblins of a surrounding town, but end up running into much more. Right out of the gate things get going. Their whole group survives the battle, but a few other groups aren't quite as lucky. It seems that there are so many things happening and I felt a little confused as the girls try to figure out who's picking mercenaries off and how they will retaliate! It's time for them to team up with other groups to battle a group of trolls out for revenge by the loss of one of their own from the opening scene. I'm curious to see what happens next because there was a lot left hanging. It does have graphic language and imagery, but it's got my attention and had me laughing often. Especially Betty! She's my current favorite queen!! 1 of 1 people found the following review helpful. An absolute joy. By Nicole S. -- YA Author and Book Blogger I'm going to keep this short and sweet: RAT QUEENS: VOLUME 1 is vulgar, insane, and entirely enjoyable. I've been meaning to read this series since the series was optioned for an animated TV series that was back in summer of 2014. I finally got around to checking the first volume out when I stumbled across it on NetGalley, and now I'm kicking myself for waiting so long. I love female-centric comics. I love diversity in comics. I enjoy crude humor. I adore complex characters. And I absolutely love well-written/illustrated battle scenes. RAT QUEENS has all of that. This first volume was pure fun. I don't know any other way to describe it other than by saying RAT QUEENS is an absolute joy. 0 of 0 people found the following review helpful. If you like to laugh and Dungeons & Dragons, GET THIS BOOK! By Mr. Burger Get this book! Highly original, basically a really funny DD game in comic form featuring very different but lovable characters. Just the right amount of 3rd wall breaking and lots of jokes, this book kept me laughing and I will certainly be keeping up with the series. Makes a great gift for any fantasy nerds in your life! I have sent copies to a lot of my friends and everyone loves it. NOTE: this is a M-rated book (sexual references, language, and violence).

Who are the Rat Queens? A pack of booze-guzzling, death-dealing battle maidens-for-hire, and they're in the business of killing all god's creatures for profit. It's also a darkly comedic sass-and-sorcery series starring Hannah the Rockabilly Elven Mage, Violet the Hipster Dwarven Fighter, Dee the Atheist Human Cleric and Betty the Hippy Smidgen Thief. This modern spin on an old school genre is a violent monster-killing epic that is like Buffy meets Tank Girl in a Lord of the Rings world on crack! Collecting the first five issues of the sold-out hit series at the special introductory price of \$9.99!

From Booklist The Rat Queens are a tough, insouciant gang of neer-do-well girls (they're certainly not ladies) who love a good bar brawl. When they are assigned a mission as punishment for their latest recklessness by the mayor of Palisade and it turns out to be a trap, Hannah, Violet, Dee, and Betty come back to the town to figure out who has it in for them and the other local fighting gangs. And if they have to beat up a few people and monsters to do it, then that's just fine by them. Wiebe and Upchurch offer readers three-dimensional female characters with varying body types, races, sexual orientations, and backstories, while also including all the intriguing side characters, crude language, drug use, magic, violence, and sarcasm that a humorous, adult action-fantasy volume should have. Upchurch's art has beautiful depth, and his panels glow with life. Offer this to readers tired of the same old comics featuring cheesecake depictions of female characters or to readers who like intelligent plots with a side of smart aleck. --Snow Wildsmith If you're looking for an M-rated series that is full of swordplay, sorcery, and sass, and you don't mind a bit of gore thrown in for good measure, you'll love this. Betty, Dee, Hannah, and Violet are mercenaries for hire who can drink a troll under the table, use language that would make an orc blush, and mercilessly eviscerate baddies. Off on a minor "quest" in order to make up for their drunken brawling, this kick-ass quartet soon realizes that someone or something wants them very dead. Making them dead, however, is far easier said than done. It's not just the fantastic pacing of Wiebe's (Peter Panzerfaust, Debris) text or former video game designer Upchurch's blood-sprayed action sequences, but also the characters themselves that drive the story relentlessly forward. Possessed of very different body types, personalities, and idiosyncrasies, and not afraid to share exactly what they're feeling, the Rat Queens are refreshing characters whose story will leave readers thirsty for more.
