Kurtis J. Wiebe : Rat Queens Volume 3: Demons before purchasing it in order to gage whether or not it would be worth my time, and all praised Rat Queens Volume 3: Demons:

45 of 47 people found the following review helpful. Judge the book by its coverBy CustomerThe best I can say for this is "meh" and that makes me very sad. I LOVED Rat Queens 1 2. Couldn't wait for #3 to come out. Sat down read it as soon as it came in the mail and now, I'm actually angry at how mediocre it was. The first two volumes were fairly tight stories with character growth and depth. The main story line here, such that it was, was just a big prelude to the next book ... which would have been fine if they hadn't spent 50% of the pages on little side stories that neither progressed the plot nor helped you understand the characters more. Not to mention all the time building up a character, making him important to the Queens, then killing him off screen. The entire thing just felt like the authors were adding filler because they didn't know what to do with the story at this point. Also not helping is the switch in artists. The new art isn't bad but it really doesn't match the style of the story. Gone are the hard angles, detailed backgrounds and focus on the character's expressions. In its place are big eyes, big boobs and blurry smears. The artist is obviously skilled but that overly rounded, almost cell-shaded art is not what I expected under a Rat Queen's title. In this case you should judge the book by its cover, cause that's exactly what you get with this book and it's a shame. 12 of 13 people found the following review helpful. Please do better. By Customer Loved Vols. 1 and 2. Thought the story had progressed in a way that made sense with humor and great character development. Then volume 3 happens. Shift in art looks like a web comic instead of a class A publication. Story meanders without making the reader want more. Characters go from dirty fighting, witty heroines who knuckle up in the face of adversity to cranky children. The series is fantastic if you stop with the first two volumes though. 2 of 2 people found the following review helpful. Disappointed By Becks I love LOVE this series but this volume was such a let down for me. I did not like the ending and I don't like where the author is taking this series. I'll hold out for the fourth volume and see it through but I did not like the ending.
