Definitely a great buy and easy returning options!

Take the easiest path to respiratory pharmacology mastery with Raus Respiratory Care Pharmacology, 9th Edition. With broken-down terminology, relatable explanations, and reader-friendly writing, Rau simplifies the process of learning pharmacology material like never before to prepare you for success on your exams and in professional

practice! This new edition includes the most recent advances related to apneic and asthmatic pharmacology, twice the number of clinical scenarios, more drug formulation tables, and a new mobile app for interactive drug flashcards. Enhanced readability helps readers more easily understand difficult material. Full-color design makes the text more reader-friendly and helps the learner to identify relevant details within an illustration. Learning objectives parallel the levels tested by the NBRC exams to help readers identify important information that goes beyond memorization and recall. Key terms with definitions provide easy access to the pharmacologic vocabulary readers should embrace. Key points in each chapter highlight important concepts in the lesson. Self-assessment questions offer readers the opportunity to test themselves on content learned with thought-provoking questions that require short answers. Clinical scenarios with follow-up SOAP assessment help readers assess their comprehension of the material. Glossary of all key terms in the text aids readers in understanding the terminology associated with respiratory care pharmacology. Appendices on common units, systems of measurement, and acceptable mixtures provides references to need-to-know information such as abbreviations, conversion charts for temperatures, liquid metric and solids, and a simple drug compatibility chart for drug mixtures. Alphabetical drug index offers a direct index to look up information based on drug name. NEW! Recent advances related to apneic and asthmatic pharmacology familiarize readers with current information. NEW! Twice the number of clinical scenarios engages the reader and helps them apply what they have learned. NEW! Mobile app for interactive drug flashcards provides a more technology-savvy, portable approach to the study and review of respiratory pharmacology. NEW! More drug formulation tables that include drug categories, brand names, and dosages provide a go to reference for better consistency and readability.
